🪪 PROFILE

Innovative software engineer with 1+ years of experience in the implementation and development of data-driven web applications. Passionate about turning abstract web ideas into visual reality and experienced with all stages of the software development cycle, and adequate knowledge of it's technologies and agile methodology. A fast learner that stays true to his fundamental values of creativity, integrity, passion, and simplicity. Looking to join a team of highly skilled and passion-driven engineers while contributing to a meaningful project.

💼 PROFESSIONAL EXPERIENCE

Feb 2020 – present

REACH Technologies Incorporated, *Front End Developer (Vue.js)* ⤢
- Maintain, update, and improve existing company websites.
- Improved features and processes, API integrations, refactored codes producing smoother operations, and increasing user engagement.
- Developed dynamic and browser compatible pages while translating UI/UX design wireframes into code hence delivering high quality, reusable mobile-first, and cross-browser markup.
- Designing and implementing MJML email templates for marketing campaigns.
- Ensure efficient web development by lending support to designers and web developers while troubleshooting performance issues resulting in system performance improvements up to 70%.
- Collaborated with team members to implement new feature developments and code quality review.

May 2018 – Oct 2019

Obafemi Awolowo University, *Research Student*
- Collected data for 'MACHINE LEARNING-BASED CROP DISEASE MANAGEMENT: ENHANCING EXTENSION-BASED DECISION SUPPORT SERVICE TO FARMERS'.
- Annotated and labelled data.
- Trained annotated data on GCP.
- Developed a model from trained data.

Apr 2019 – Jul 2019	**Cedarview Communications Limited,** *Graduate Trainee* ⬈
	• Maintained, updated, and improved company website
	• Developed dynamic and browser compatible pages while translating UI/UX design wireframes into code hence delivering high quality, reusable mobile-first, and cross-browser markup.
	• Wireframe design of mobile application and websites.
	• Integrated a new payment gateway with 4ipnet controller.
	• Project timeline management using Gantt chart.
	• IT support at client side.
	• Collaborated with teammates in the setting up of connections and configuration of PBX, switch and gateways for VOIP.
	• Collaborated with teammates in the setting up of communication links between GCP and Ubiquity radio.
Apr 2018	**Cedarview Communications Limited,** *Industrial Trainee* ⬈
	• Maintained, updated, and improved company website
	• Designed mockups and wireframes.
	• Implement websites, landing pages, and applications from concept through deployment, with a responsive, mobile-first approach

🎓 EDUCATION

Mar 2019	**Obafemi Awolowo University,**
	Bachelor of Science (Electronics And Electrical Engineering) ⬈

📖 COURSES

May 2019	**Front-End Web UI Frameworks and Tools: Bootstrap 4,**
	The Hong Kong University of Science and Technology ⬈
Jul 2020	**Javascript: Understanding the Weird Parts,** *Udemy* ⬈
May 2019	**JavaScript Tutorial course,** *SoloLearn*
